Correction

In our last weeks paper we advertised Mr. J. G. Clark's sale on Tuesday August 23rd. This should have been Monday August 23rd. The date was correct but we had the wrong day. Dont forget the day and if you want some good horses be sure and be there.

For Sale—Two good grade short horn milch cows, one three yr old heifer with calf at foot; one two yr. old heifer with calf at foot; one ranger cow with calf at foot; two fairly good milch cows with calf at foot; one pole Angus cow well broke to milk with two calves at foot.
On the N. W. 4-18-47-4.
C. C. Riddle, Irma.

For Sale—1 De Laval Cream Separator No. 15, good as new.
L. Hostrop, Irma.

Mrs. E. Thompson, of Prince Rupert, mother of Mrs. Wilson, was a visitor at the Wilson home recently. Irene and Bobby Wilson came home with her after a six weeks' stay in Prince Rupert.

Local News of Irma and District

Miss Nora McFarland has accepted the position as teacher for Alma Mater School.

A piano tuner will be in Irma next week. Parties wishing their pianos tuned can leave word with Mr. Graydon at the Co-op.

Glenholm school opened last Monday with Mrs. C. Christenson in charge.

Mr. C. and Miss Clara King, of Edmonton, stopped off Sunday night on their way back from the east to visit their brother Mr. W. H. King.

Don't forget Mr. J. G. Clark's sale of good work horses next Monday afternoon.

Mr. C. H. Roberts of the Co-Op staff has been spending a few days at Prince Albert.

If you want your piano tuned leave word with Mr. Graydon by the first of next week.

Mrs. J. Logan and daughter Betty of Strathcona are spending a few weeks at the home of Mr. and Mrs. W. L. M'ldon Jr.

Sunday Services.

Bible Study and Preaching service at Strawberry Plains at 11 a. m.
Preaching service at Sunny Brae at 1:30 p. m.

Women Can Fortify Their Health

With constantly aching backs, weary, dragging-down pains, dizzy and nervous headaches, women have a hard burden to carry. It is wise for every woman, to fortify herself against these derangements which are present when extra demands are made upon the system by Nature's laws. No better remedy exists for women's peculiar ailments than DR. HAMILTON'S PILLS, which possess tonic properties that act upon the proper organs at the proper time. To prevent headaches, to overcome dragging weariness, backache, nervousness and pallor, to look well, sleep well, eat well and enjoy the manifold blessings of sound, regular health, every girl and woman should regulate her system by Dr. Hamilton's Pills, 25c per box.

Love of The Wild

ARCHIE P. MCKISHNIE

Printed by Special Arrangements with Thos. Allen, Toronto, Ont.

(Continued.)

"Watson?" questioned Paisley.
"Watson's likely comin' over today. Dad's got a letter from him."
Paisley examined his hands in his pockets and shrugged his shoulders. "I scented trouble when the Colonel built that mill over on Totherside," he declared, "but there was no way of stoppin' him. But I reckon you're built on; it's his own timber he's been sawin'. I understand he's layin' plans to get our timberland, and there ain't no tellin' just what a man like him will do to gain his ends. But, Boy, we're here first — don't you forget that."
"I ain't forgetting it," returned Boy grimly.
"Say," said Bill, abruptly changing the conversation, "when is Gloss's birthday?"
The shadow left Boy's face and he looked up with a smile.
"Why, it'll soon be now," he answered, "she's nineteen next month."
"I didn't figger on lettin' you in on this," grinned Paisley, "but I reckon you need cheerin' up. You know them silver fox furs that Smythe offered me my own price for? Well, I'm not goin' to sell 'em to Smythe nor anybody else. They're for Gloss."
"For Gloss?" repeated the Boy, "for Gloss?"
"Say, Bill, you can't afford to give them furs away — not even to Gloss."
"Me and Injun Noah are makin' her coat," chuckled the man. "Such a coat, Boy! No lady in this land has ever had such a coat before; never will have such a coat again. Silver-fox pelts at three hundred dollars apiece. Think of it, Boy! And there's six of 'em — four gray and two black. And the coat's to be lined with mink-skin, too — think of that!"
He took his friend by the arm and took him into the house. Boy liked Paisley's home; it was always so bright, so tidy, and so cheerful. The wide table of heavy oak with solid legs artistically carved standing in the center of the main room, the carved high-backed chairs fashioned by a master hand, the crude charcoal sketch of marsh and wood and water scenes on the whitewashed walls, gave him a sense of refinement.
A great iron tea-kettle suspended over the fire of hickory logs was disgorging a cloud of steam that drifted to the rafters. Paisley came forth from an inner room carrying a huge platter piled high with fowl.
"Never seen the partridge in better condition," he avowed. "I shot six last night and I've been feastin' ever since. Just pull up and devour, Boy, while I give old Joe some of his choice bones. I've been sayin' 'em up for him. I'll get you some of my special brew of tea soon's I wipe the reproach out of that setter's brown eyes."
Boy drew up to the table and fell to with an appetite such as only men of the woods possess.
Having attended to Joe's wants, Paisley placed a pot of fragrant tea at his guest's elbow, and leaning back in his chair with a smile of content, lit his well-seasoned clay pipe and smoked.
His eyes followed those of Boy, who was gazing on the smaller of two rifles hanging above the fireplace.
"You've often wondered why I never use the little gun," he remarked, drawing his chair forward and leaning upon the table, "and I've never told you. I'm goin' to tell you now. I won the rifle from a man down near Sandwich. He was a bad man all

round, and up until I met him just about made the laws of his community. I happened along there one night, and bein' in no hurry, made up my mind to stay around for a time. The feller I speak of owned that rifle. He was a big chap, about five years older than me, and was supposed to be a fisherman. In reality he was a smuggler, and he was a slick one, and no mistake. When he wasn't smuggling he was gamblin' with the sailors and passengers of the lake boats. A poor little hunchbacked sister kept house for him, and he used to ill-treat her. Once I happened along and stopped him from strikin' her with a whip. Of course, he always hated me after that. One afternoon there was a shootin'-match in the neighborhood, and he beat me shootin'." Paisley sat back and smiled.
"Yes, he beat me shootin', Boy. Then he got boastin', but I didn't say a word. He finally offered to bet his rifle against mine that he could beat me again. I didn't want more hard feelin's, but I simply had to be game. A man couldn't just take a dare in that wild country, so we had the match right there, and I won his rifle. He didn't say anything but he looked murder. I left the place soon after that, and about a year later I came along that way again. I heard then that the fisherman chap had died, and I went over to see him. I found he was dead, and I went over to his shanty and found the little woman dyin'. She knew me and she seemed to want to tell me something. But the end came before she could say it."
Paisley nodded toward the rifle.
"I've never shot that gun since, and I won't. I'd be ashamed to shoot a gun that belonged to a man who'd leave his crippled sister to starve."
"Did the sister know where her brother had gone?" asked Boy.
"No; or if she did she couldn't tell me."
"I'll see him — leave that to me," Boy pushed back his chair and rose from the table.
"I don't understand how any man could do such a thing. Bill. What was the feller's name?"
"His name was Watts, Jim Watts," answered Paisley, going the kettle off the fire. "I ain't thinkin' of the feller. I would know him again, now, even if I happened to run across him. This all happened sixteen years ago."
He followed Boy outside and the two walked over to an out-house standing in a grove of birches.
"I haven't had much use for this fork since the wolves got poor old Moolay last winter," said Paisley. "Guess I'll be gettin' another milk-cow soon 'cause it's quite a bother havin' to go to Peeler's for my butter."
"I was goin' to ask you about Peeler," said Boy. "I wish, Bill, you'd see him and persuade him not to sell one stick of his timber to Halliburton or his agents. Jim's an easy-going sort, you might be led off quite easy, and it's up to us to see that he isn't." Paisley replied, "And I'll see the rest of the Bushwhackers, even old man Broadbrook and his sons, who haven't any particular use for me, somehow."
"I guess what the Broadbrooks do won't matter much," laughed Boy. "They hate everybody and everything it seems. I don't know why."
He picked up the fork and turned toward the path. "A west wind had pulled up a bank of long dark clouds above the wood. The wind was drier and from the distance came the dull boom of the waters beating upon the muddy shore of the bay.
A few yards down the path Boy halted.
"Say, Bill, dad was tellin' me 'bout the talk you had with the teacher. I wish you'd get better acquainted with him and make him see that his place isn't here."
"If he was half as smart as he thinks he'd see that it isn't," replied Paisley.
"And Bill," called Boy from the edge of the wood, "I guess Mary Ann knows a real man when she sees one. Keep askin' her till she says 'yes,' Bill."
As Boy found the creek path a gust of wind, damp with the spray of Round Eau, smote against his face with biting force.
From across the creek came the jarring notes of the school bell.
Then the wind fell, and the clouds parted to let a misty web of warm sunlight through to the world.
(To be continued.)

To Entertain V.C.'s at Exhibition
A movement is on foot to have the 30 or 40 men in Canada, who have won the Victoria Cross, meet at the Canadian National Exhibition, Toronto, and invitations will be sent out with this in view. It is proposed to specially honor the V.C.'s at the exhibition.

"Mounties" Active In Eastern Canada

Helping to Enforce Immigration Rules and Prevent Any Smuggling

Equipped with unromantic motorcycles, members of the Royal Canadian Mounted Police, recently posted to their new stations in Eastern Canada, are gradually increasing their activities along the St. Clair border. Stringent enforcement of the immigration rules is being insisted upon, and all persons suspected of being guilty of breaches of the immigration or customs laws are brought before the authorities, and asked to explain. Reports of extensive smuggling of Chinese into the United States has resulted in the appointment of a force of special officers on the American side. The matter has become somewhat serious south of Port Huron, and the Canadian authorities have been asked to co-operate. The result is that the number of Royal Canadian Mounted police here may be increased. The "Mounties" whether on horseback or motorcycles, adhere to the tradition of the service, that no matter where the trail may lead they always get their man.

"California Syrup of Figs"
Child's Best Laxative

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless physic for the little stomach, liver and bowels. Children love its fruit taste. Full directions on each bottle. You must say "California."

German Warships To Be Broken Up

Other German Battleships Have Been Set Apart for Use as Breakwaters

Edinburg, Scotland.—The recent arrivals of various German battleships and other craft which are being handed over to the British authorities under the peace treaty conditions have created considerable interest in this district. One of the most interesting of these has been the former well-known commerce raider, the Moeve, which earned a great amount of notoriety during the war. This vessel recently arrived in Leith Roads, and is now to be handed over to a London firm in order to be specially fitted out for the fruit trade.
It will be recalled that the Moeve, which was only built during the war, performed some daring exploits during the early part of 1916. This famous raider captured the Apani, and on the succeeding day sank the Clan McTavish. In a two months' raiding cruise, the Moeve claimed to have captured or sunk no less than 15 vessels.
It has been announced that two of the German battleships which had recently been surrendered, namely the Baden and Heligoland, are to be sent to Portsmouth where they will be used as target ships. The Baden is a new super-dreadnought, plated with massive armor and embodies all the latest German ideas of gunfire protection. Used in the manner indicated, much valuable information will no doubt be obtained by our naval constructors as to the efficacy or otherwise of that type of armor.
It is also stated that other German battleships which have been allocated to Great Britain have been set apart for use, when filled with concrete, as breakwaters in the vicinity of Freshwater, Isle of Wight. In this region coast erosion has been very serious, and it is felt that these German vessels packed with concrete should make a very formidable barrier to the encroachment of the sea.

The former German destroyers V 80 and V 127, which were allocated to Japan, have, it is learnt, been handed over to the Granton Ship-breaking Company to be broken up. These vessels are at present moored in the West Harbor at Granton. The former German battleship Nassau, which has been moored for some considerable time near Burntisland, has left the Firth of Forth to be broken up elsewhere.

Two Good Reasons Why the People of Canada Should Eat More Fish

Two good economical reasons why you should eat more fish:

It is cheap and nutritious, and provides a thrifty meal.

One of Canada's greatest sources of wealth is her fisheries, and you help develop the industry by eating fish, and also help to put Canada in a better financial position.

Probably you are not aware how little fish Canadian people use.

Great Britain is one of the greatest fish consuming countries in the world. During 1918 she had a per capita consumption of 58 pounds and in 1919, it is believed, this was increased to 60 pounds. This means that each individual consumed at the rate of more than one pound per week.

In the United States last year it is estimated by officials at Washington the per capita consumption was 19 pounds. Although little reliance can be placed in this estimate, there is no doubt but that the local consumption in the United States has increased greatly in recent years.

A few years ago the per capita consumption in Canada per annum was a matter of ounces. Through the combined efforts of the Canada Food Board and the Fisheries Branch it is estimated that the local consumption at one time reached a point equal to 45 pounds per capita. During 1919 it is estimated that the per capita consumption was somewhere between 23 and 25 pounds per annum. Canada is one of the greatest, if not the greatest fish producing countries of the world. Why have our people so little faith in fish?

A Prize for Britain

The Largest and the Most Wonderful Airship in the World

Some time this week there will arrive, in England from Germany Zeppelin L-71, the largest and most wonderful airship in the world. Surrendered to Britain as part of the penalty of defeat, it has been reported on several occasions that this airship had been so effectually crippled by the Germans that it would be impossible to navigate it. This would be quite in keeping with the long list of attempted evasions of peace terms of which the foe has been guilty. But, whatever the truth of that story, the fact now is that the vessel is ready to fly to England, and will become a part of the British aerial fleet, the most modern in existence.

It is not improbable that the L-71 may be used in some of the contemplated flights to the more distant overseas Dominions. In navigable weather conditions this would be an easy feat for the craft, which has a

flying radius of 12,000 miles. The provision of proper landing stations might be the chief obstacle to a tour to Australasia via Canada, or a journey to India by way of Egypt. Plans like these are talked of in Britain, which is quite used to airships of the latest kind, though the L-71 will be a new wonder there, as it is twice the size of the famous R-34 that flew to the United States and back with ease last year. As an object lesson for the Dominions in the possibilities of aerial communication it would be worth while to spend some money in visits of the Great Zeppelin to Empire countries.

Such a tour would also include a flight over the city of New York, for the bombing of which the monster airship was avowedly constructed. London and other English cities know what death and destruction the smaller Zeppelins can inflict. New Yorkers might at least guess what would have happened to their city had the L-71 been ready for action before the war ended. Whether she comes to this side of the ocean or not it may be taken for granted that Britain will put the surrendered aerial masterpiece to good use of itself and as an instrument of instruction for its own aircraft designers and builders.—Toronto Globe.

Authors of National Anthems

Sir Adolphe Routhier, who died on Sunday night, won his place in the Hall of Fame as the author of "O Canada." Alexander Muir, the venerable author of "The Maple Leaf Forever," died in Toronto about a dozen school teachers. Routhier was a Catholicist jurist; Muir a much loved school teacher. Routhier was a Catholic; Muir an Orangeman. Musically "O Canada" is conceded to be the finest song of the two and its acceptance in Quebec is general. "The Maple Leaf Forever" will doubtless continue to be played and sung for many years to come.—Ottawa Journal.

Clan
Dinner—Is there an ysonop on the bill-of-fare?
Waiter.—There was, sir, but I wiped it off.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

For Colds, Pain, Headache, Neuralgia, Toothache, Larynx, and Rheumatism, Linings, Sciatica, Neuritis, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all.
Accept only "Bayer Tablets of Aspirin" in an unbroken "Bayer" package which contains complete directions. Then you are getting real Aspirin—the genuine Aspirin prescribed by physicians for over nineteen years. Now made in Canada. Handy tin boxes containing 12 tablets cost but a few cents. Druggists "Aspirin" in an unbroken "Bayer" package also sell larger "Bayer" packages.
There is only one Aspirin—"Bayer"—You must say "Bayer" Aspirin is the trade mark registered in Canada of Bayer Manufacturing of Sauerbrunn, Germany. While it is well known that Aspirin means Bayer, the public is being misled by cheap imitations. The Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

COUNTER CHECK BOOKS

Provide the only means by which you can keep an absolute accurate check on your sales. The new luxury tax and sales tax makes it necessary to keep such a record. We make sales books suitable for any line of business, with either duplicate or triplicate copies.

TRIPLICATE BOOKS

There is a heavy demand just now for triplicate books. We make a great variety of triplicate books, both in separate carbon leaf and black back style.
Write us for sample and prices before placing your next order, or ask any of our agents to give you this information.

Vegetable Parchment Butter Wrappers

We are in the best position of any firm in Canada to fill your order promptly for parchment butter wrappers, either printed or plain. We are large importers of this brand of paper, and have special facilities for printing wrappers in either one or two colors of ink.

WAXED PAPERS

We also manufacture a complete line of waxed bread and meat wrappers, plain or printed, waxed paper rolls for home use, and waxed papers for all purposes.

Our equipment is the most modern and complete to be found in Canada. Our goods are first class and our service is prompt. Let us prove this to you on your next order for Counter Check Books, Parchment Paper, or Waxed Paper.

CUTICURA HEALS BABY'S RINGWORM

On Head, Cross and Fretful. Hair Fall Out.

"When my baby was three months old her head broke out in little red pimples and then in a week it broke out in ringworms. The ringworms were very large and there were several on her head, and her scalp would bleed. She was very cross and fretful at times, and her hair was falling out."
"I used Cuticura Soap and Ointment, and after I had used one cake of Cuticura Soap and two boxes of Cuticura Ointment she was healed." (Signed) Mrs. Leah Sargent, Nampa, Idaho, Feb. 24, 1919.
Use Cuticura Soap, Ointment and Talcum for all toilet purposes.
Soap 25c, Ointment 25c and 50c. Sold throughout the Dominion. Canadian Depot: Lyman, Limited, St. Paul St., Montreal.
Cuticura Soap shaves without pain.

Strangling the League

United States is Largely Responsible For Existing Difficulties

Had the United States followed the European Allies in Ratifying the Treaty of Versailles it is reasonable to suppose that by this time the league of nations would have been on its feet, and that much of the existing confusion would have been prevented. At present a rather common American pose is one of indifference to European affairs. Neither this attitude nor any other assumption of blamelessness can alter the fact that the United States is largely responsible for the existing difficulties and for the loss of much which was thought to have been gained by the victory of justice and democracy.—Cleveland Plain Dealer.

Your Eyes

Granulated Eyelids, caused by exposure to Sun, Dust and Wind quickly relieved by Murine Eye Drops. No Stinging. Just Eye Comfort. Your Druggist or by mail 60c per bottle. For Book of the Eye free write Murine Eye Remedy Co., Chicago.

Encourage Dairy Industry

Will Sell Pure Bred Stock on Easy Payments

To encourage the development of the dairy industry the Saskatchewan Government has sent A. J. Clark, of the live stock branch, to the east to purchase one hundred head of young grade dairy cows and heifers.

An effort will be made to secure as many Shorthorns of a good milking strain as possible and the rest will be grade Holsteins and Ayrshires. These cows will be sold on easy terms to farmers already engaged in the dairy business or who are entering it, who will agree to have all cows purchased from the department bred to pure bred sires of the same standard strain.

Nine men constitute a jury in Mexico, and a majority gives the verdict. If the jury is unanimous there is no appeal.

Faint and Dizzy Spells. Weakness and Shortness of Breath.

You can generally tell when the heart is affected by the faint and dizzy spells, the shortness of breath, palpitation, throbbing, irregular beating, smothering sensations, weak, sinking, all-gone feeling, choking sensation, etc.

Many men and women become run-down and worn out when otherwise they could be strong and healthy. If they would only pay some attention to the first sign of heart weakness.

No remedy will do so much to make the heart regain strength and vigor, regulate its beat and restore it to a healthy and normal condition as Milburn's Heart and Nerve Pills. Mrs. C. A. S. Drake, Paris, Ont., writes:—"I have used on towards the second box of Milburn's Heart and Nerve Pills and find they have done me good. I had those fainting, dizzy spells, once in a while, and also weakness and shortness of breath, and would become so choked up at times I could hardly sleep, without sitting up in bed. When walking too fast I would have to stop and try to catch my breath. I feel a lot better since I have used your pills and know that they have helped me wonderfully as I have improved very much."

Price 50c. a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

In Burma people of superior rank must not dishonor themselves by passing underneath persons of inferior rank. Thus a nobleman must not pass through a hall when a servant is occupied in a chamber above. This is one of the chief reasons why most of the houses in Burma are but one story.

The barn owl, when she has young, brings a mouse to her nest about every 12 minutes. As she is actively employed at both evening and dawn and as both male and female hunt, 40 mice a day is a low computation for the total capture.

In Japanese cities many of the streets are devoted exclusively to the sale of particular articles.

Keeps Baby's Skin Healthy

If every mother could only realize the danger which lurks in the neglect of chafing and skin irritations she would not take chances on being without Dr. Chase's Ointment to apply after baby's bath.

It arrests the development of eczema and makes the skin soft, smooth and velvety.

50 cents a box, all dealers, or Edman, Bates & Co., Ltd., Toronto.

Alien Immigration On the Increase

No Shortage of Foreign Labor in U. S. Anticipated

The present immigration situation portends no curtailment of the supply of foreign labor in the United States, Frederick A. Wallis, commissioner of immigration at Ellis Island, commented in making public statistics for the fiscal year just ended.

Though total departures were 334,254, or 19,736 in excess of arrivals, he declared that the incoming tide of aliens steadily is increasing. He pointed out that the immigration station was not re-opened on a pre-war basis until last March, and that most of the outgoing aliens are bringing their families back when they return.

Immigrants are arriving as fast as they can obtain transportation, Mr. Wallis said.

At Yoho Camp

Beautiful Resort in the Yoho Valley Opened to the Public

On July 1st Yoho Camp was opened to the public. This camp will have accommodation for at least 25 people and will be located on the same site as in the past, in the Yoho Valley, about a mile and a half from the foot of the Takakaw Falls. It consists of about ten wall-tents (for sleeping purposes) and each tent will accommodate from three to four persons comfortably.

The rates will be on a basis of five dollars per day; two dollars per bed and one dollar for each meal.

The camp will be situated about 11 miles from Field Station and affords one of the finest long drives in the Rockies. The road crossing the Kicking horse river follows the rocky valley at Mount Field, round which it swings and up the valley until some precipitous cliffs are reached. Up this it zigzags to a higher level until the camp is reached a short distance from the beautiful Takakaw Falls. As an alternative this trip can be made by carriage to Emerald Lake, thence Pony Trail, which leads up through forests to the camp. This altitude of 6,000 feet, where it is joined by the trail from Field over Mt. Burgess. Reaching the summit, a wonderful view is obtained. Passing summit Lake a small beautiful colored lake, the descent is made into the Yoho Valley and to the Camp. This distance from Emerald Lake is about six miles.

Many interesting and charming trips can easily be made from Yoho Camp to Emerald Lake, Yoho Glacier, Takakaw Falls and Burgess Pass.

The trip to the coast is not complete unless a trip is made at some of the beautiful resorts and view the interior scenery at leisure. Canadian Pacific agents will give full information and descriptive booklets on the various resorts.

National Industrial Meet

Will Follow Up On the Conference Held Last Year

Plans are under way for the calling of another national industrial conference, at which both capital and labor will be in attendance. The appropriation for this purpose was provided by parliament in the Department of Labor estimates which passed during the last week of the recent session.

Last year's production represents a mere tit of what the island is expected to produce this season, for this luscious fruit thrives in many parts of the island and the market for strawberries is larger than for any other fruit.

Canners from Western Canada contract for strawberry pulp. Jam factories take fresh strawberries not suitable for shipment and for the fresh fruit for table use there is always a demand greater than the supply.

With a climate softened to a degree that at times approximates the semi-tropic by the Japanese current, this island seems destined to become one of the greatest producers on the continent.

Miller's Worm Powders act so thoroughly that stomachic and intestinal worms are literally ground up and pass from the child without being noticed and without inconvenience to the sufferer. They are painless and perfect in action, and at all times will be found a healthy medicine, strengthening the infantile stomach, and maintaining it in vigorous operation, so that, besides being an effective vermifuge, they are a tonic and health-giving in their effects.

When a hummingbird is striped of its feathers it is no larger than a bumblebee.

In Java it is supposed that if a live sheep is thrown into the water it will indicate the position of a drowned person by sinking near it.

"Corner" in Storms

The Island of Java owns up to an average of 97 storms a year, or approximately two a week, the world's record. Sumatra stands beside Java, with 86 per annum. Borneo and the Gold coast, have 50 each, Rio de Janeiro, 51 Italy, 48, Buenos Ayres, Canada and Austria, 23. France and South Russia, the colder regions, have 16 apiece, Spain and Portugal 15, Sweden and Finland 14, and East Turkistan gets off very lightly with a total of—none!

Apart from the human species, no land animals can sing.

Another Case of Blood Poisoning

Persisted in paring his corns with a razor. Both when cure is so painless and sure with Putnam's Corn Extractor. Use Putnam's only—the best—guaranteed and painless, price 25c. at all dealers.

Ice Mines

Walls Are Incrusted in the Hottest Months of Summer

A miner, prospecting for lead, many years ago, blew a shaft into a rocky hillside at Boxley's Park, near Edgecote. The mine was abandoned, but the following year its walls, and the cavern leading from it, were discovered incrustated with ice; and this ice has been reappearing annually, and strangely enough, in the hottest part of summer.

Natural scientists, to explain this phenomenon, claim that owing to the peculiar formation of the caverns the cold air of winter does not penetrate and settle in them until late in the spring. At that time the water from the spring thaws is seeping its way through, and meeting this cold air, freezes. It remains there frozen all summer. In July and August picnic parties may be seen freezing ice cream at the mouth of the ice mine, with ice they have chopped from its walls. There is said to be a larger ice cave in the cliffs at Deborah, whose winding passages extend back for miles into the hills, and that there is evidence that the Indians had discovered this in the old days and used them as storage places for their food in summer.

Vancouver Produces Tons of Strawberries

Holds Highest Record for Production Per Acre in Canada

More than 600 tons of strawberries were harvested in the districts of Gordon Head and Keating, on Vancouver Island, during the season 1919, and they sold for about \$212,750, at an average price of \$355 per ton.

Under careful cultivation strawberries are producing from \$500 to \$700 gross per acre, and the total space devoted to last season's crop was about 400 acres. This district holds the highest record for production per acre in Canada.

Last year's production represents a mere tit of what the island is expected to produce this season, for this luscious fruit thrives in many parts of the island and the market for strawberries is larger than for any other fruit.

Canners from Western Canada contract for strawberry pulp. Jam factories take fresh strawberries not suitable for shipment and for the fresh fruit for table use there is always a demand greater than the supply.

With a climate softened to a degree that at times approximates the semi-tropic by the Japanese current, this island seems destined to become one of the greatest producers on the continent.

Miller's Worm Powders act so thoroughly that stomachic and intestinal worms are literally ground up and pass from the child without being noticed and without inconvenience to the sufferer. They are painless and perfect in action, and at all times will be found a healthy medicine, strengthening the infantile stomach, and maintaining it in vigorous operation, so that, besides being an effective vermifuge, they are a tonic and health-giving in their effects.

Should Eliminate Non-Laying Hen

Makes More Room and Keeps Feed Bills Down

The season of the year is at hand when poultrymen should be considering the advisability of eliminating non-laying hens from the flock. Eliminating the non-laying hen has a tendency to keep the egg production at a high level, makes more room for those that are laying during the hot weather and besides this it helps to keep the feed bills down. Early cullers are poor breeders. Probably from five to ten percent of the birds in the flock are not laying at this season of the year and could advantageously be eliminated. It does not follow that all broody hens should be taken out for many of them will start laying again as soon as the broody period is broken up. On the other hand, birds that are moulting at this season will, as a rule, be found non-productive. It is best to give the hens the benefit of the doubt and no hens should be convicted until all the evidence has been examined. It is perhaps best to examine the shanks, beak, carotids (in the light breeds), and the vent to determine whether they are pale or yellow in color. Yellow in these parts denotes hens that are moulting and will help when used properly to eliminate the non-laying hens.

Minard's Liniment Relieves Diphtheria.

Although sometimes seen 400 leagues from land, the frigate-bird is said to return every night to its solitary roost.

HOW TO OVERCOME NERVOUS TROUBLES

A Returned Soldier Tells How He Regained Health and Strength

Nervous troubles of all kinds, particularly nervous debility, work a remarkable transformation in the patient. The change is both physical and mental. The sufferer loses weight and strength, and frequently becomes irritable and fault finding. Troubles that were once thrown off without any difficulty assume exaggerated proportions. The entire system of this nervous condition are poor appetite, headaches, exhaustion after little effort, and frequently sleeplessness.

The cause of this debility is generally continued nervous strain, which gives the nervous system its food and power to work efficiently, has become thin and weak, and until the blood regains its tone and strength there can be no improvement in the condition of the nerves. In cases of this kind, the only remedy is the use of Dr. Williams' Pink Pills. They will be found the very best medicine. They make rich, red blood which feeds and strengthens the starved nerves, and in this way restores the sufferer to full health and strength. Proof of this is found in the case of Mr. Fred Sanders, London, Ont., who says: "While on service with the Imperial forces in Africa I completely lost my health through continued hardship and hospital suffering, so the doctor said I was to stay in Netley hospital. I was given my discharge, but was still a weak and nervous wreck. I had neither the strength nor ambition to do anything. In London I deteriorated for three or four months with a civilian doctor, who finally advised a change of climate. I was sent to Netley, suffered from sleeplessness, smothering and sinking spells, and pains in the heart; my hands and feet were always cold and clammy. At this time I decided to come to Canada, and shortly after reaching this country was advised to try Dr. Williams' Pink Pills. After I had taken the pills for some weeks I found myself improving. I continued taking the pills for several months with the result that they fully restored my health. My nerves are now as steady as a rock, my appetite the best, and my eyes and skin, which had turned yellowish, are clear and healthy looking. I feel like a new man in every way and fit for anything. I have since recommended the pills to several friends, and know of several cases where they were beneficial in influenza epidemic. I am of the opinion that should any of my returned comrades be troubled with Dr. Williams' Pink Pills for shell shock, they would be a great help to them."

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail, post paid, at 50 cents a box or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

Given Supreme Power

Supreme power in the government of Poland and full military authority has been vested in a national council of defence which was created by the Polish diet.

"DANDERINE" FOR FALLING HAIR

For a few cents you can save your hair and double its beauty

To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of delicate "Danderine" at any drug or toilet counter for a few cents, pour a little in your hand and rub it into the scalp. After several applications the hair usually stops coming out and you can't find any more dandruff. Help your hair grow strong, thick and long and become soft, glossy and twice as beautiful and abundant.

The Poorly Paid Teacher

In Cobalt, Ontario, they are advertising for chore boys at \$130 per month and teachers for less than \$90 a month. Some day the teaching profession will come into its own proper status and the value of its work will be recognized in its true worth.—Clinton New Era.

A Power of its Own—Dr. Thomas' Electric Oil

Electric Oil has a subtle power of its own that other oils cannot penetrate. It is a power that many pretend. All who have used it know this and keep it by them as the most valuable liniment available. Its uses are innumerable and for many years it has been prized as the leading liniment for man or beast.

Kept Kipling's Checks

Author's Balance in Bank Did Not Decrease

At one time Rudyard Kipling paid his bills, no matter how small they happened to be with checks. After awhile he discovered, to his amazement, that his bank account showed a much larger balance than the stubs of his check book warranted. In fact, while he was drawing checks for small amounts almost daily, his money in the bank did not seem to dwindle in the least. For a long time he was at a loss to account for this astonishing fact until he happened one day to visit an office, the occupant of which was an enthusiastic autograph collector. There the author saw one of his own checks, framed and hanging on the wall. The mystery was solved. It appeared that the local shopkeepers found that they often got more for Kipling's checks by selling them to autograph hunters than they could by cashing them at the bank, and so, although the author kept drawing checks, his balance remained almost intact.

Minard's Liniment Relieves Colds, etc.

Produced Minerals at \$254,001,586. Minerals to the value of \$254,001,586 have been produced since the discovery of silver at Cobalt in 1903, and the mining of gold in the Porcupine and Kirkland Lake districts about six years later, according to returns based on official figures. Dividends paid by the mining companies have aggregated \$99,437,321.

These Pills Cure Rheumatism.—To the many who suffer from rheumatism a trial of Parment's Vegetable Pills is recommended. They have pronounced action upon the liver and kidneys and by regulating the action of these organs act as an alternative in preventing the admixture of uric acid and blood that causes this painful disorder. They must be taken according to the directions and used steadily and they will speedily give evidence of their beneficial effects.

What For?

Just why America should be feverishly building huge battleships and battle cruisers at a rate that will soon make us the strongest naval power on earth is a question that is interesting Great Britain, Japan, and some people in our own land. The launching of the "Tennessee," the world's largest battleship, has renewed talk about this matter.—Literary Digest.

Worms sap the strength and undermine the vitality of children.

Strengthen them by using Mother Graves' Worm-Expeller to drive out the parasites.

The largest mass of pure salt in the world is under a section of Galicia.

It is known to be more than 500 miles long.

THIS WOMAN'S RECOVERY

Shows Remarkable Curative Power of Lydia E. Pinkham's Vegetable Compound.

Chester, Ont.—"Before using Lydia E. Pinkham's Vegetable Compound I was a total wreck. I had terrible pains in my sides and was not regular. Finally I got so weak I could not go up stairs without stopping to rest half way up the steps. I tried two doctors but they did not help me. I saw your medicine advertised in the newspapers and thought I would give it a trial. I took four bottles of the Vegetable Compound and was restored to health. I am married, am the mother of two children, and do all my housework, milk eight cows, and do a hired man's work and enjoy the best of health. I also found Vegetable Compound a great help for my weak back before my babies were born. I recommend it to all my friends who are in need of medicine, and you may see the letter for my wish."—Mrs. HENRY JAMES, R. R. No. 4, Chester, Ontario.

It hardly seems possible that there is a woman in this country who will continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, proving beyond contradiction that this grand old medicine has relieved more suffering women than any other medicine in the world.

PROVINCE OF ALBERTA

6 PER CENT. GOLD BOND

Help Your Province

- By purchasing bonds of the Province of Alberta.
- While securing the highest class of investment procurable, you at the same time aid your Province to provide for the building of its Public Works and Telephones in the most effective way.
- Financing by the issue of bonds within the Province results in the distribution of the Interest amongst our own people.
- If you encourage this idea, you help your Province to become less dependent on outside money markets.
- Interest is payable half-yearly—1st. of May and 1st. of November—by coupon.
- Bonds are in denominations of \$100, \$500 and \$1,000.
- Remittances should be made by marked cheque, money order or postal note.

These Bonds may also be obtained from any recognized bond house in the Province of Alberta. Write for fuller information to Deputy Provincial Treasurer.

Crop Report.

The situation with respect to the various grain crops in Alberta has continued to improve steadily, according to the seventh semi-monthly summary issued by the department of agriculture.

Wheat was not held back by the protracted heat spell and is in head everywhere, while cutting has commenced in several districts. The spring wheat will come in with a rush and there will be very little belated crop. In fact, wheat is the best crop in the country just now as it is good everywhere. The yield will be considerably higher than it has been for at least four years. The yield cannot fall below 22 or 23 bushels and with one or two light rains to keep growing and filling active it may pass the 25 bushel mark. Most of the wheat stands well up to three feet in height and above in some cases. The grain is not very long in the Peace River country but is making steady improvement. There will be 45 bushel crops threshed in some fields.

The oat crop has received sufficient moisture to keep it succulent and make the growth very strong. Two-thirds of the oat crop is now headed out and is indeed good. The balance shows some contrast to this condition due to late seeding. This year many farmers continued seeding for green feed up till June 20th, and this crop is not very far ahead. The oat crop promises to be good heavy grain and rather above the normal in yield.

Barley has suffered rather more than any other crop on account of the warm weather during the early part of June. In some cases it is heading out short. The acreage of barley does not appear to be particularly large.

Rye is an excellent crop this year and the harvest has started in Southern Alberta.

With regard to the limiting factors in the grain crops, there have been some extensions of the hopper area since the last report but these have not been large and the damage not great. The cutworm trouble is about over. The sugar beet webworm has made its appearance this year and has done considerable damage to garden crops in southern areas. It is not a factor in grain crops.

It is worth all over, the two lines is reported as being in splendid condition.

Some damage by hail is reported but apparently the injury is not more extensive than in other years.

Fair Dance a Success.

As usual, the dance in the hall after the fair was a huge success. Dancing commenced at 10 a. m. and was as full of pep as any one could wish. Had any more, so called "pep" been displayed some one would surely have suffered rather some poor "feet." As it was several complained of having their "pet corn" agitated to its height of feeling by the heel of some one else's number 10's. The supper was just sufficient to go around and that was all—but the dance made up for the lack of eats and the music was some what better than that at dances previous—the music being supplied by Mr. and Mrs. Ray Luder who keep excellent time. They were also assisted by the Kennedy-Archibald Orchestra who also displayed good talent.

Several complaints were heard from some, about the supper and also the music. Messrs. Roberts and Mildon wish to state that if any of the "so called kickers," who wish, can have the dance hall any time they feel inclined and that they will gladly pay their \$1.00 admission. Some people do not stop to consider the work that is attached to the running of a dance. All they seem to think is, that all persons running it have to do is sit at the door and take the money—well try it and see. Most places now a days the admission is \$2.00 and no supper is served and in most cases dancing is run by programme and in all only about twelve dances to a run. So kick if you wish.

The boys are giving another dance after harvest. The date will be published in a later issue. Again we say—"Help the boys and don't be a kicker."

Scarlet Chapter

On Saturday, August 14th, Sir Knight Commander W. A. Clark, in Command, and Sir Knight Commander E. P. Rowe, County Master, visited Irma and assisted by Knight Commanders R. W. J. W. Gradon, J. Watson, Wm. A. Knapp, W. S. Walker, J. McNaughton and F. W. Watkinson exalted seventeen candidates to the illustrious Scarlet Chapter. The whole of the new Knight Commanders are Royal Arch Marksmen of the Irma L. O. L. 2066. After the exaltation lunch was served and a social time spent.

CHARITY BEGINS AT HOME

Charity Collector—"Have you any particular use for your old clothes? Citizen—"Sure, I'm wearing them."

OUR LITTLE ADS. DO BIG WORK

New Provincial Road Will Assist Travel

The new road which is being constructed from Jarow direct east to the meridian line, and which runs across our north town line is now rapidly nearing completion and adds greatly to the comfort and convenience of all travelling this district.

By way of a tour of inspection the Hon. A. J. McLean, minister of public works, accompanied by Mr. J. R. Robertson, provincial engineer, were driven over the new route last week by Mr. G. L. Hudson, M. L. A. and both these gentlemen expressed their gratification at the splendid job done on this highway.

While on their tour the party paid a visit to the fair at Chauvin last Friday and were banqueted in the evening, at which function Our Member was called upon for a speech, which duty he filled in his usual felicitous manner.

The new highway now links up all the G. T. P. towns from the eastern boundary of the province with direct road communication and will no doubt prove a boon to farmers and travellers in general.—Wainwright Star.

Death at Bruce.

A sad death took place at Bruce on Wednesday last when Miss Phoebe Roberts, died after a very short illness. The funeral services were held at St. Mary's church, Viking on Friday when requiem mass was celebrated. Interment took place in the Roman Catholic section of the Viking cemetery, Rev. Fr. Steinmetz officiating. The pall bearers were six young ladies from Bruce, intimate friends of the deceased who was seventeen years of age at the time of her early demise.

VIKING

Wm Davidson was down from Tofield last Sunday visiting friends.

Harland Hilliker joined the Merchants Bank staff Monday as junior.

B. R. Page of Chauvin, was visiting with Mr. A. Ross of the Bawlf Grain Co., for a few days.

Eva L. Jones, of Delaware, Ohio, is in Edmonton visiting his niece Mrs. Lee Harvey.

Mr. W. W. Withers and family and Mr. and Mrs. Rodwell, Lavo, Alta., spent Sunday at E. B. Hummel's.

Mr. Lloyd Stonehocker of Meadow Lake, Sask., brother of Mrs. E. B. Hummel, Mr. and Mrs. Dan McGregor, Lavo, Alta., and Mrs. Gregory and daughter of Edmonton visited at E. B. Hummel's Saturday.

Wants, Notices Strays, Etc.

Shorthorn Bull For Sale—5 yrs old. Barker Bros., 20-47-8, Irma, Alberta. 17-21c

For Sale—2 teams of heavy horses 2 sets heavy harness, 1 new wagon and box. Apply to A. A. Taylor, N. 12-46-8 or H. W. Love.

For Sale—Good second hand 6 ft. binder. Smart Brothers near Sunny Brae school. 3tc

STRAYED—from Section 20-47-8, one grey horse, 2 yrs old, one bay horse, 2 yrs old, branded 30 on right thigh; also one bay saddle pony, one knee crooked, no brand. \$5.00 reward for information leading to recovery. R. Marquis, Orbendale. 17-1p

LOST from sw 24-46-9, two bay mares branded HE or HE on left thigh, yearling colts with them. Also bay 2-yr-old branded HE left thigh. \$5 reward for each.—H. H. Reber. 19-3p

For Sale—5 good milch cows, grade short-horns. Apply S. J. Brown, E. C. D. 20-23p

For Sale—1 set plow harness, layer traces, bridles, in good condition and sulky plow no bottoms. Both for \$75.00 cash. Can be seen at Mr. W. C. Brooks, N. W. 2-46-9. 19-2u

Strayed from N. W. 28-45-9-4 1 bay gelding branded O had foretop and tail roached, had halter on when he left. \$5.00 reward for return. J.R. Love.

Minburn

Our agent, Mr. and Mrs. Jaynes, had a visit from the stork and a fine big girl was the result. Both Patricia and mother are reported to be doing well.

The crops are looking well, more especially in the Banana Belt. Rye is being cut generally all over.

Frank Ferguson, the new postmaster, has at last completed the concrete block for the post office, which is the first of its kind in this part of the country.

A pie social and dance was held under the auspices of the Minburn Boy Scouts with the Minburn orchestra in attendance. Mr. Jones, scoutmaster, was a busy man and proved quite an artist at making his guests at home.

Quite a gloom in the midst of our festivities, word was received that one of our town men had passed away, Mr. Jack Astley, which came to us like a cloud. Mr. Astley leaves a wife and five children, who have condolences and sympathy from every one that knew him.

Buying or Selling at Calgary Stock Yards

No need of carrying large sums of money, certified checks, bank drafts—no need to worry about exchange, etc., when buying or selling at the Calgary Stock Yards.

The new Calgary Stock Yards Branch of the Merchants Bank of Canada will serve you, by transferring funds to or from your home bank.

The Manager will also furnish any information you may desire re market conditions. Write, telephone, or wire.

There is a room in the bank for your use while at the Yards.

Irma vs Alliance

Down the road to Sedgewick
Down to defeat by Alliance
Rode our base ball team
Rooters to right of them
Rooters to left of them
Volleyed and thundered
Was there a hit that paid
Was there a man dismayed
Because our catcher had blundered
—And the score was 8-1 in favor
of Alliance.

Doc Matheson has been suffering
from stiffness of the joints since the
last game of Indoor Baseball. Doc
says he absolutely refuses to play
again—Some say—good old Doc.

Ernie, the star second base-man
of the Irma Out Door Base-ball
team received a severe injury to one
of his paws, while participating in
a game of Indoor Baseball played
outside. This goes to show that it
takes as much practice to play this
dangerous game as it does to play
the less exciting game of real base
ball and the players of the outdoor
baseball team would do good to
watch carefully the actions of either
A. Dickson or Geo. Tripp before
attempting to enter into the excit-
ing game of Indoor baseball.

Leon Hughes, star first base-man,
has taken out a contract to com-
plete the ditch east of town. Leon
reports the work going on fine and
expects to relieve Irma of a few
gallons of pretty good water.
Albert Hughes, Leon's brother,
says he is sure he could have car-
ried the water out in pails during
the time the City Fathers have been
squabbling around. Good boy
Albert.

Dr. MacGregor, Dad, George and
Buck took a joy ride to Manville
Sunday. Dad says the roads are
in much better condition than the
day the gang went to Minburn to
play ball. There was one corner
Dad thought was on the other side
of the road—but Dad was turned
around? At least we suppose that
was what was the matter. Every
one looked turned around on their
arrival home the day of the flood—
internally and externally. Crops
looked good last Sunday and in
some places cutting had commenced.

We forgot to mention in the last
issue, that Admiral Troskie and
his crew had to push one of their
"Boats" over all the high waves on
their way home from Viking after
their defeat by the team of that
town. The above mentioned boat
was of the old model Brass Band
type, and would only travel on
high—hence when the Admiral
and his crew came to the big hills,
or high waves, they were forced to
get out and push—We might add
that the boat was called "Ford"—
whether or not it was christened in
the usual manner—(Champagne)
we do not know, at all odds it
brought the Admiral and his crew
safely back to the Irma shore.

"Andy" our home town pitcher,
and we might add, the only pitcher
between Edmonton and Saskatoon,
was called to Killam to show some
of those people who dwell in those
towns to the south of us, on the
C. P. R. how to pitch a ball.
Andy pitched for Killam against
the only once defeated Alliance
team and on a personal interview
with our ever famous pitcher, the
writer was informed that he was
successful in putting it over the
Alliance line-up by a score of 15-4.
Andy seemed quite pleased with his
victory and said that he got excel-
lent support from his fellow players
—which goes to show that our
Andy is there when he gets the
necessary.

Speaking about baseball. Did
anyone notice anything wrong with
the 1st game played here last

Day, between Irma and Wain-
wright? Wasn't it good to watch
the Wainwright pitcher who occu-
pied the box during the first
inning? The writer has been to
Barnum and Baileys and several
other of the world famous circuses
but never in all his experiences saw
such a laughable spectacle as that
pitcher presented. Had the game
continued as slow as he started out,
we are doubtful whether or not it
would have been over yet. Come
again Wainwright, you're good.
You may be able to beat us once in
a while but—excuse our dust when
it comes to Real baseball.

The Trail Rangers

Every boy wants to find the best
trail for his life. The Canadian
Standard Efficiency Training Course
will point to the very best trail for
the Canadian boy between 12 and
14 years of age. Through this
course of training, the boy will
develop a strong, healthy body.
He will learn how to play games
and will in all probability develop
into an athlete. Just as our early
pioneers were experienced campers
and skilled in the art of woodcraft
and outdoor life, so the boys who
become Trail Rangers will, when in
the wilds, know how to take care of
themselves. There will be thou-
sands of these Trail Rangers in
every province in the Dominion all
following the trail blazed by the
Great Guide, who as a boy of the
Trail Ranger Age "Increased in
wisdom and stature and in favor
with God and man" and who after-
wards said, "I am the way."

A boy's chief business in life is to
grow. All that he does should add
to his development. His games,
his work, his reading, his schooling,
his church and Sunday School, all
his relations with other boys and
girls and with grown people should
contribute to his growth "in wis-
dom and stature, and in favour
with God and man." But many
boys develop lopsided lives. They
may be well-developed intellectu-
ally but with weak puny bodies.
Some boys are strong physically but
will never achieve great success in
the world because their minds are
not trained, or, as in other cases,
because they are not trying to live
up to the teachings of Jesus and are
following the wrong trail.

The Trail Ranger is a four fold
boy. He gets all the schooling he
needs and learns much through
familiarity with Nature—the great
out-of-doors teacher. He plays
hard and forms good, healthy hab-
its, thus giving tone to the muscle,
power to the brain and strength to
the nerve. He believes in the in-
fluence of his church and Sunday
School and in his dealings with
those with whom he comes into
contact and tries to follow the ex-
ample of the One who makes the
trail easier for others to follow and
who went about doing good.

Trail Rangers Picnic

Last Saturday the Trail Rangers
held a picnic at the Battle River.
Eighteen boys turned out and show-
ed as much pep as any bunch of
Trail Rangers in Canada. When it
came to baseball Geo. Fischer is a
regular John McGraw. The Umps
can't slip anything over George for
he's in the game all the time.
After a short game of ball the boys
hit for the cool refreshing stream.
We're not all fish in the water but
we had a whale of a time just the
same. When the "cats" were de-
voured we hit the trail for home.

Trail Rangers Field Day.

Tomorrow Saturday August 21st
the Trail Rangers of Irma will hold
their first athletic meet. The pro-
gram will consist of the official
events for Trail Rangers as outlined
in the Canadian Standard Efficiency
Training Manual which will include
1. 75 yds dash
2. 60 yds potato race
3. Standing broad jump
4. Running high jump
5. Hop step and jump
6. Throwing baseball for distance.
7. Throwing at a target (10 throws)
All Trail Rangers and new mem-
bers are asked to bring their run-
ning shoes and to be at the church
at 2:30 p. m. In addition to the
above program the initiation of
some of the new members will take
place.

ROYAL YEAST CAKES

Royal Yeast has been the standard yeast in Canada for over 50 years, and it is a well known fact that bread made with Royal Yeast possesses a greater amount of nourishment than that made with any other.

Co-Operation in Industry

Although sharp differences of opinion may exist throughout Canada as to the methods to be employed to promote the prosperity and development of industry in this Dominion, people are a unit in desiring to see the natural resources of this country developed to their fullest degree for the use and benefit of our own people and in order to enlarge the export trade of Canada.

No thinking man or woman is antagonistic to the building up of great manufacturing industries in Canada; on the contrary, everybody welcomes them, is anxious to see them prosper, and is prepared to do everything within reason to assist their growth in the common interests of all and for the welfare of the Dominion. Opinions may and do differ as to the policies and methods to be adopted to that end, and these are properly open to debate, but it is almost universally recognized and accepted that the primary means to be employed should be scientific and vigorous development of Canada's latent wealth in natural resources of all kinds.

Manufacturers, workmen and consumers alike stand to benefit greatly through the development for use of those natural sources of wealth with which the several provinces abound. For example, it is a source of national strength and of benefit to all people that, as one proponent of the great manufacturing interests recently pointed out, Canada should have a great match-making industry. Such an industry calls for the use of many natural products of Canada, gives employment to hundreds of men and women, and to the extent that it supplies the home market and adds to the export trade of Canada, adds to the national strength and financial stability of the country. Our people should welcome and support such industries.

But it is in the interests of all manufacturing industries as well as in the interests of transportation, business generally, and the whole body of the consuming public that the basic industries should receive first and foremost attention, such an industry, for example, as coal mining. With our adequate supply of coal at reasonable prices all manufacturing industry, transportation, and so forth, would be seriously crippled, if, indeed, not brought to a standstill.

Canada has abundant coal deposits, yet this country has for generations imported coal to the extent of tens of millions of tons annually, thus adding to the adverse balance of trade, while our own mines have languished and employment in their development been denied to our people. Now, owing to conditions over which this country has no control, it has become a matter of dire necessity that our people should secure their coal requirements largely at home. Here in the West we must rely almost exclusively this fall and winter upon the output of our western mines, yet, because the lack of development in the past it will be difficult for them to meet the heavy demands so suddenly thrust upon them.

In past years these mines have frequently been idle during the summer

months, because there was no immediate demand for coal, and because much of it is of a class that cannot be stored in the open, subject to the weather conditions. It must be stored under cover. This has resulted in labor dissatisfaction, because of "lay-offs" at the mines, and the operators have had great difficulty in maintaining full and efficient staffs of workers. Such a condition has also added to the transportation problem, inasmuch as the eastbound coal movement from the Alberta mines to Saskatchewan and Manitoba has come at the same period of the year as the heavy movement of grain from the prairies to the head of the lakes. In other words the two heaviest freight movements have come together, and both have called for transportation in the same direction—from east to west. If one moved west and the other east, the transportation problem would be simple, but two heavy freight movements in one direction, means a return of long trains of empty cars the other way, thus adding enormously to transportation costs which the people have to pay.

Future provision must be made for the transportation and storage of Western coal during the summer months before the grain movement begins in the fall if dangers of grain blockades or an acute coal shortage in severe weather are to be avoided. It is too late to do much in this direction this year, but the people can help very materially and in a simple and thoroughly practical manner by buying their winter's requirements of coal and taking delivery of it into their cellars, which are the chief existing places of storage—now. A heavy movement of coal in the West during the next six or eight weeks will assist enormously in reducing the costs, preventing grain blockades with a bumper crop in prospect, providing against a coal shortage with its resultant inconvenience and suffering, and largely solve the big transportation problem which otherwise will cripple the country during the coming fall and winter.

To Hold Court at Chesterfield Inlet
For the first time in Canadian history, court will be held at Chesterfield Inlet, when Oungwak, alleged murderer of two kinsmen, will be tried. The Eskimo was brought to Winnipeg by Sgt. W. O. Douglas, of the Royal Canadian Mounted Police, who will take him to Chesterfield Inlet, sailing from Montreal.

SAVE THE CHILDREN

Mothers who keep a box of Baby's Own Tablets in their homes may feel reasonably safe during the hot weather. Stomach troubles, cholera infantum, and diarrhoea carry off thousands of little ones every summer, in most cases because the mother does not have a safe medicine at hand to give promptly. Baby's Own Tablets relieve these troubles, or if given occasionally to the well child will prevent their coming on. The Tablets are guaranteed by government analyst to be absolutely harmless even to the newborn babe. They are especially good in summer because they regulate the bowels and keep the stomach sweet and pure. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Frenchman Inventor Of Poison Gas

Proof Sustained in Original Documents Dated April 1865

That a Swiss Lieutenant 250 years ago invented asphyxiating gas for the French army, is the claim advanced by the French prebri supported by historic documents, proving that so far as was concerned there really was nothing new under the sun. The Ministry of Foreign Affairs contains the original documents dated April 1865, signed by Dupre, French Consul at Geneva, attributing the discovery to the Sieur Dorast of Sie Valais, then serving the French King at the Canton of Fribourg. According to Dorast's claims, he was able in four hours at a minimum expense to prepare a liquid giving off a gas so thick and of such disagreeable odor that it was impossible for human beings to remain in its proximity.

The gas bomb is no new invention, for Dorast had perfected a method of throwing containers from a cannon, even exceeding modern gas artists by devising a cartridge or tube to be fired from an ordinary army pistol. The official record, however, fail to show whether the great Louis investigated Dorast's discovery, but military experts of today point out that the letters were mentioned 14 years ago in a volume published by the Swiss Consul in Belgium and probably prompted German experts of frightfulness to investigate the possibilities of adopting gas in warfare.

Birds That Cannot Fly

Wings of Barnyard Fowls Have Become Useless for Flying

Why don't barnyard fowl fly? They can make a fluttering pretence at flight, it is true, but for real flying their wings are useless. Barnyard fowl have lost the use of their wings through neglecting to use them. They have been valued for their eggs, and, as a consequence, they have been well fed. Thus the necessity for flying from place to place in search of food has not existed. They have for the same reason been protected as far as possible from attack by animals and from other dangers that would make flight, as a means of escape, a necessity. In course of time, therefore, their wings have become practically useless for purposes of flight. The wings of barnyard fowl are gradually decreasing in size. It may be in the course of time their wings will be nothing more than mere stumps, and later still it is quite possible that they will disappear altogether.

IT CURES CATARRH BRONCHITIS

You don't have to wait for relief when you use Catarrh-zone.

This wonderful inhaler treatment is guaranteed to cure any case of Catarrh, no matter how chronic.

You breathe through this inhaler and in so doing you send all through the breathing organs a powerful vapor that is full of soothing, healing, germ-destroying properties.

In this way the seeds of Catarrh are destroyed. Sore throats and cured. Coughing, hard breathing, and sneezing all stop. For lasting cure use only Catarrh-zone. Refuse a substitute. Two months' treatment (including the inhaler) priced \$100. Small size 50c, at all dealers, or The Catarrh-zone Co., Kingston, Ont., Canada.

Canada's Need

Resources Only Need to be Developed in Order to Enrich This Country

"What is the need of Canada at the present time? We have a great debt in this country. How are we going to meet it? We are told to produce. We can produce in the factories, on the land, and in the mines of this country. We have great natural resources that only need to be developed in order to enrich this country; and if we can only develop those resources to the extent of one-fourth of their value at the present time we would have no trouble in meeting our obligations as a nation. There is no cause for any person in this country to be discouraged about the future of Canada. All we need to do is to move around this Dominion to realize the great resources we possess; and we cannot help but become prouder of our country and cannot help but glory in the fact that in Canada, we have as great wealth and as great opportunities as are to be found in any land in the world today. What is requisite is to encourage the development of those resources, and given an opportunity to the people to take advantage of the wealth that is in the country there will be no need for the government to worry about the future of Canada and no need for the honest, capable and ambitious citizen of Canada to worry about it either."—W. A. Buchanan, M.P., in the House of Commons.

The Danube river flows through countries in which 52 languages and dialects are spoken.

Cause of Asthma. No one can say with certainty exactly what causes the establishing of asthmatic conditions. Dust from the street, from flowers, from grain and various other irritants, may set up a trouble impossible to eradicate except through a sure preparation such as Dr. J. D. Kellogg's Asthma Remedy. Uncertainty may exist as to cause, but there can be no uncertainty regarding a remedy which has freed a generation of asthmatic victims from this scourge of the bronchial tubes. It is sold everywhere.

Rain falls in torrents in the Sahara Desert at intervals of five, ten and twenty years.

Open Timber Exhibition

Canada Has Attractive Display At Kensington

Prince Arthur of Connaught, opened the Empire Timber Exhibition at Kensington, promoted by the geographical department of overseas trade with the object of bringing into more universal use the timber grown in the Empire.

The promoters give a special word of praise to the Canadian forestry laboratories at Montreal. Canada has a fairly extensive, and well staged exhibit, and a few Canadian firms have individual displays.

The exhibition is of a purely technical character, intended to attract traders. The official catalogue which contains a list of shippers, importers, etc., will doubtless prove useful to specialists in the timber industry.

Farmers and Automobiles

Practically 50 percent of all the motor cars built are sold to farmers. The sales of motor trucks to farmers are fast reaching that high mark, for the trucks afford the means to save money, not only in transporting farm products to market and getting better prices, but in cutting down the farmer's overhead expenses.

Minard's Liniment Relieves Distemper.

Pershing Receives Jewelled Sword

Sir Auckland Geddes Presents Gift From City of London

Great Britain does not forget those who prove themselves its friends in the hour of need. Sir Auckland Geddes, British ambassador to the United States, told General Pershing, in presenting him with a jewelled sword as a gift from the city of London. The presentation was made at the British embassy.

Commenting on the celebration of the independence of the United States "wring from an autocratic government by the spirit of individual freedom exists in many lands," Sir Auckland recalled that in those days, "there were many on both sides of the Atlantic Ocean who thought the action of the framers of your constitution right."

"There is none now, I believe, on either side of the Atlantic," he said, "who does not think that they would not walk on it for three weeks. I got all of English stock, the memories of Rummymede are a possession of all your people as they are living memory and possession of all the British people."

General Pershing accepted the sword "in the name of the men of the United States who, with the men of Great Britain and the other allies, combined the courage and skill that brought a new victory to our race, and to all those who seek justice and liberty for mankind."

I fell from a building and received what the doctor called a very bad sprained ankle, and told me I must not walk on it for three weeks. I got MINARD'S LINIMENT and in six days I was out to work again. I think it is the best thing I ever used. ARCHIE E. LAUNDRY, Edmonton.

Sumatra Protects Tigers

Tigers are protected in Sumatra, the reason being that one of the important industries of that country is the cultivation of an African palm. This palm was introduced several years ago, and the wild hogs so enjoyed its easily obtained fruits and so thrived on them that they increased and multiplied rapidly until they became a perfect pest. Now, wild hogs are the favorite diet of Sumatran tigers, therefore the protection. But it looks like a dangerous experiment.

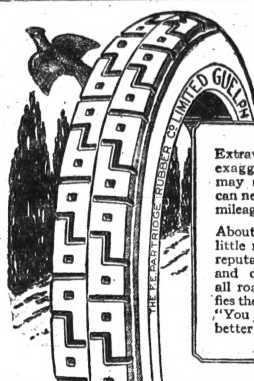

England to Grow Square Trees

Not with any desire of giving publicity to the designs of that curious class of artists, called cubists, but with the entire laudatory ambition of avoiding needless waste, the Cambridge Forestry Association, of Cambridge, England, suggests that trees should be made to grow square instead of round, thus producing wood of better quality and in greater quantity. Will the leaves, flowers and fruit of such trees be square also, one wonders?

Holland is covered with willow trees, and the great dykes of the country are made stronger by the network formed by the roots.

Much Loss Is Incurred in Summer Months Through Placing Fertile Eggs on the Market

The presence of male birds in the flock during the summer months has a decidedly detrimental effect upon the quality of eggs and poultry producers lose many thousands of dollars annually through the presence of partially incubated and bad eggs in the produce they market. Reports are now being received from all parts of the country of the number of partially incubated eggs appearing in current receipts. Producers do not realize that it is unnecessary for a fertile egg to be placed under a broody hen to cause the germ to grow; a temperature of seventy degrees is sufficient to start incubation. If the heat is constant the development of the chick will continue, but if it ceases or is intermittent, putrefaction at once sets in, and the egg becomes bad. Such eggs have no place or value in shipments, and should they get to the consumer the consumptive demand immediately falls off.

The male bird is not essential in egg production, his usefulness is over when the supply of fertile eggs for the season has been secured. The hens will lay just as many eggs when the male bird has been removed and the eggs will be more suitable for consumption, packing or storing. Further, there is a distinct financial gain to the producer who markets infertile eggs, because the best trade in many cities offer a premium of from one to five cents a dozen for infertile eggs.

Then there is the question of feed. It costs money to feed poultry, and with feed at its present value, the consumption of feed by males kept for no particular purpose is a serious economic waste. The reason for this is that the best price for live and dressed fowl prevail in the spring and early summer. During the summer the price declines, and by the early

Your Car's Appearance Is Important

Canadian Polishes, Limited, Hamilton - Ont.

fall when many producers decide to market their male birds a lower price than prevailed in the spring has to be accepted; the producer thus losing the amount per pound the market has declined, plus the value of the feed consumed by the birds during the summer months. This financial loss takes on a more serious aspect when it is coupled with the amount charged back by the wholesaler for the bad and partially incubated eggs that have been marketed.

Farmers and others selling eggs for market should therefore need no urging to kill off, dispose of, or at least remove the male birds from the flock after the breeding season.

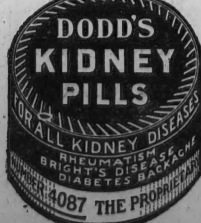

Hard and soft corns both yield to Holloway's Corn Cure, which is entirely safe to use, and certain and satisfactory in its action.

"There's a Reason" for Grape-Nuts

Sinn Fein Court Orders Suppression Of All Information

Dublin.—The Dublin county court has instructed its officials not to supply any information to the British income tax authorities nor to allow these authorities to examine books or documents. "The Irish Republican Parliament" issued these instructions through the self-styled court.

Sinn Fein executive in Cork has circulated among the Cork merchants a similar warning not to furnish income tax information, adding: "Any breach of this order will be severely dealt with."

The situation in the west and south is so serious owing to the stoppage of trains, that many towns are adopting a rationing system as a precaution.

Londonderry, Ireland.—An atmosphere filled with ominous forebodings prevails here. It will surprise no one if the civil warfare that terrorized this city for more than a week recently, broke into fresh flame at any moment. Nationalists, who in the recent struggle were finally forced to yield to the armed weight of the government troops, now seem all prepared for new war.

Sandbags and barbed-wire fences are being erected in the main thoroughfares.

Russian Peace Needed

British Labor Delegation Declare the Continuation of Blockade Is Madness

London.—The British Labor delegation which recently returned from Russia, has issued an interim report. It declares there is urgent need for immediate peace with Russia, and that persistence in the policy of blockade and intervention is madness and criminal folly which can only end in European disaster.

Emphasizing Russia's economic and transport difficulties and the absorption of her efforts in military activities, the report says: "Ringed from the world by a blockade of all powerful nations, attacked by enemies from within and without, and menaced by fear of counter-revolutions, from within, it is wondered that a revolutionary government, which has maintained any kind of order and discipline amongst its peoples, has rallied to its support practically the whole Russian nation."

Voice Across the Sea

Wireless Telephone to Join Newfoundland and England

St. John's, Nfld.—Preparations are being made at the historic Signal Hill for establishment of communication between Newfoundland and Great Britain by wireless telephone. The feat of speaking across the Atlantic by wireless telephone has already been accomplished, connection having been established between London on the one side and Glace Bay, C.B., the Marconi headquarters, on the other. But in the present instance, it is planned to make the scheme much more extensive. The real purpose of the activities of the Marconi Company is to give a demonstration to the old-world members of the press conference, who will shortly be out this way to join the Dominion members in Canada for a two months' tour of that country.

The object is to have the steamer Victorian, on which the press men are coming across, in constant communication with the land on either side from the day they leave Liverpool till they arrive in Halifax, and for this purpose a station is being equipped on the Cornwall coast in England, second at Cabot Tower, Signal Hill, St. John's, and the third on the Victorian.

Villa May Surrender

Mexican Rebel Has Signed Armistice And Agrees to Cease Making Trouble

El Paso, Tex.—A despatch to the El Paso Times from its correspondent in Torreon, Mexico, says Francisco Villa has signed an armistice and agreed to cease attacks on trains, garrisons or towns.

The rebel chiefs have also agreed to surrender, under certain conditions to be approved by Provisional President De La Huerta.

W. N. U. 1324

MEIGHEN WILL BE LEADER OF THE NEW PARTY

Has Been Called to Form A New Administration

Ottawa.—Hon. Arthur Meighen, Minister of the Interior, has undertaken the formation of a new administration, succeeding Sir Robert Borden, the retiring premier. Two retirements from the cabinet are announced, Hon. N. W. Rowell, president of the Privy Council, who is retiring

HON. ARTHUR MEIGHEN Who has been called upon to form a new administration in the Dominion.

ing to private practice, and Hon. Martin Burrell, Minister of Customs, who is to become librarian of parliament. The two retirements, it is stated, are not due to the change in leadership. Mr. Burrell has for some time expressed a desire to return to private life. Mr. Rowell's resignation is based on the point that a new party being created, and an administration formed to represent that party, that he is entitled to ask "an honorable discharge."

So far as the remaining members of the cabinet are concerned, it was stated on high authority, they will give their "undivided support" to the new prime minister. In the formation of his cabinet, therefore, Mr. Meighen will have but two retirements to meet—those of Mr. Rowell and Mr. Burrell, with the addition of that of Sir Robert, whose resignation will leave the Maritime provinces without a representative in the cabinet. Mr. Meighen himself possibly will assume the portfolio of president of the privy council, relinquished by Mr. Rowell, and in that event it is likely that the department of the interior, over which he now presides, will be merged with that of immigration and colonization. The vacancy caused by the resignation of Mr. Burrell, it is thought, is likely to be filled by the appointment either of R. F. Green, member from Kootenay West, or of H. H. Stevens, Vancouver centre.

As a representative from Nova Scotia, the name of F. B. McCurdy, of Halifax, has been suggested. Should either of these latter appointments be made, a by-election would be necessary. Although all members of the cabinet technically resign when Sir Robert hands in his formal resignation they will not require to be re-elected on accepting office in the new administration.

Western residents of the city are jubilant over the fact that Hon. Mr. Meighen will be the first western man to take over the chief executive office of Canada. While he is a native of Ontario, Mr. Meighen has spent practically the whole of his life in the West. He has represented Portage la Prairie, Man., since 1908. Mr. Meighen was also the man who went with Sir Robert Borden to England in 1917 to attend the imperial conference. He is a barrister by profession, having graduated from the Toronto University in 1892; he is also remembered as the man who fathered the compulsory Military Service Act and carried it through the house in 1917.

Explosion in Powder Factory—Dijon, France.—A violent explosion occurred in a gunpowder factory at Vongnes, near here. It is known that ten persons are dead and thirty badly injured.

Good Crop Prospects Throughout Manitoba

Provincial Agricultural Department Issues Encouraging Report

Winnipeg.—On the whole the crop outlook in Manitoba is very encouraging, says an official report given out by the provincial department of agriculture. It is stated that reports from probably 50 percent of points are entirely satisfactory, while from others there is some word of lack of recent rains. There is no suggestion of crop failure, however, and indications run from "fair to good." Many early wheat fields are headed or heading. A fairly early harvest is expected. Grasshoppers have been successfully fought with poison, though they continue their work in some districts.

Garnering U.S. Crop

100,000 Men Are Moving North Through the Wheat Belt

Washington.—A land army of 100,000 farm hands organized by the department of agriculture is moving northward across the western wheat belt harvesting the United States grain crop in better time than in many years, according to reports to the department.

For the first time in years farmers have not been handicapped through the labor shortage, Dr. Taylor, of the farm bureau said. A wage of \$7 for a ten-hour day is being paid for harvesters.

Canadians Honored For Bravery

London.—The list of awards of the medal of the British Empire Order, just published, contains the names of the following Canadians: Charles Norman Barclay, Eva Grace Curtis Marshall, Emory McQuoid, Reginald Moncrief, Gilbert Murray, George Patterson, Clare Saue, all for conspicuous bravery at explosives factories in Canada.

News of the Provinces

SASKATCHEWAN

Regina.—What is believed to be the most favorable crop report ever issued by the Department of Agriculture was given out last week. It comprises reports from 57 points representative of the whole province, and every locality testifies to the healthy state of the crops and the abundance of moisture.

Regina.—The city is considering with the United Hotel Company, the erection of a new hotel to cost \$500,000. A committee of the Board of Trade has approved the proposals, and an effort is being made to raise the necessary capital.

Saskatoon.—The total number of big game animals shot under license in Saskatchewan in 1919 was 1,826 divided as follows: Moose, 1,011; deer, 661; caribou, 64.

Swift Current.—Further work has been done in connection with the proposals to irrigate a portion of southwestern Saskatchewan embracing 125,000 acres. The irrigated district will now probably reach the Weyburn-Leithbridge line of the C. P. R. and take in country north of Consul, Virdora and Robsart.

ALBERTA

Edmonton.—Showers and general rainfall throughout the greater portion of the province during the past week has further assisted the growth of crops. Wheat in many localities is over 12 inches high, and timothy, alfalfa, and garden produce are making excellent progress.

Edmonton.—Since the beginning of the year Alberta government employment bureaus have placed over 20,000 men and women in positions. Last month, out of 6,141 applications from men and 1,796 from women, they were successful in placing 5,480 men and 1,635 women.

Calgary.—The Pope Lease, comprising one of the finest pieces of agricultural land in the province, and containing 15,000 acres will shortly be opened for soldier settlement. More than 100 applications have already been received and the parcels of land will be disposed of by ballot.

Gleichen.—Hospitality after the true Western flavor will be accorded the British press men on their Canadian tour when they reach Alberta. Here the two special trains will be greeted by a band of 500 Blackfoot

Dipping in Mange Affected Areas

Ottawa Reports That Alberta and Saskatchewan Farmers Are Assisting in Work

Ottawa.—The first stage of the compulsory dipping order for cattle in mange-affected areas in Southern Alberta and Southwestern Saskatchewan has been completed, according to word received from Dr. George Hilton, chief veterinary inspector of the Dominion, who is supervising the move by which the federal department of agriculture hopes to practically eliminate mange within the next six or eight weeks.

All cattle in the area designated were ordered to be dipped, and work started on June 24, the total number of vats used being 88. Within a few days, twelve more had been added. Dr. Hargrave, of Medicine Hat, who is assisting with the work, reported that practically every stock owner had given the department their fullest co-operation. Range riders engaged by the department covered the territory to see that stragglers were brought in behind the general round-ups.

The second dip has commenced, and it is hoped to complete it by July 15, when statistics on the number of animals treated will be available.

Canadian Beef on U. S. Market

New York.—High prices of beef in New York have attracted heavy shipments of Canadian fresh beef, the Evening World says in a special article dealing with the decline, compared with the prices a week ago. The arrival of the shipments from Canada, the newspaper says, have curtailed the practice of short shipping to New York and making the New York market a "price model" for the United States.

Help for Poland

Spa.—A member of the Polish delegation said that Marshal Foch and Field-Marshal Wilson were considering the question of military aid for Poland.

Indians in their native costumes, and palisades and fountains.

After a tour of the irrigated district, a stampede of western frontier sports will be staged. Typical western entertainments will likewise await them at Calgary and Banff.

MANITOBA

Winnipeg.—A sheaf of winter rye just cut with the mower was brought into the city by a farmer from Birds-bill. It was fully headed out and in bloom, and measured 58 inches. This seed was sown in October last.

Brandon.—Great interest, even surpassing that of previous years has been evinced at the tour of the Better Farming Train, throughout the western provinces. The average daily attendance at exhibits, demonstrations and lectures, has been in excess of twelve hundred.

Niverville.—J. S. Laidlaw, who is growing hemp for the Canadian Fibre Products Company, incorporated with a capital of \$1,000,000, has exhibited some fine samples of this year's production, and states that prospects of a good crop are excellent.

BRITISH COLUMBIA

Victoria.—Investigation will be commenced immediately with a view to establishing a steel plant in British Columbia, according to a statement made by the chairman of the board of directors of the Canadian Collieries, Ltd. He has just returned from Brazil, Paris, and London, and has been instructed by a number of steel and financial men to investigate the steel possibilities of the province.

Vancouver.—The value of fish that were caught in British Columbia waters during the first three months of the year amounts to 1,320,888, leading all the provinces of the Dominion. This revenue was derived from 17 varieties of fish out of a total of 38 edible species that are found in quantities on the Pacific Coast.

Victoria.—The manufacture of calcium carbide at various points throughout the province is being advocated here. This material, which is manufactured from limestone and coke by subjection to heat in an electric furnace, is used for the production of acetylene gas, as a substitute for gasoline, and for certain chemical purposes. One ton of calcium carbide is obtained from 3,000 lbs. of the mixed material.

Crop Handling To be Discussed At Conference

DECISION IS UPHELD IN CASE OF GEN. DYER

Held Responsible For Firing on Indian Crowd, and Put On Half Pay List

London.—The army council, after having considered a report of the Hunter investigation committee, and a long statement submitted by Brigadier-General R. E. H. Dyer, concerning Dyer's action in ordering troops to fire into a crowd of Indians at Amritsar, in the Punjab, upheld the commander-in-chief in India for removing Dyer as commander in the Punjab and from holding any further position in India, according to an announcement made by Winston Spencer Churchill, secretary for war, in the house of commons. The council also upheld the commander-in-chief in declining to grant Dyer further promotion and his reduction in pay one half.

"Dyer cannot be acquitted by any judgment," observed Mr. Churchill. Several hundred persons were killed when the troops fired on the Indians at Amritsar last April and many hundreds were wounded.

The house of commons was greatly excited over the statement by Mr. Churchill that the army council had agreed with the decision of the Indian authorities, condemning General Dyer for firing on the meeting of native at Amritsar and declaring that he must not be further employed.

Vigorous protests were raised and cries of "shame," the house is now dealing with the budget proposals in the finance bill. The chancellor has stuck to his guns against the 5 percent reduction in sparkling wines to 33 1-3 percent.

Siberian Coast Held by Japan

No Possible Terminal Is Left to the Russian Railways

Washington.—Posselt Bay, last of the first-rate harbors on the Asiatic coast north of Port Arthur remaining in possession of Russia, has passed into the hands of Japan, according to official advices received here, which reported occupation of the town by Japanese troops. The harbor of Posselt Bay, 75 miles southwest of Vladivostok and part of Russian Siberia, was considered for a time by Russia as the logical terminal of the trans-Siberian railroad in preference to Vladivostok on account of the excellent facilities offered by its natural position.

Possession of the bay, together with other ports occupied by the Japanese this year on the Asiatic coast, according to official advices, gives Japan not only all salt water terminals of the Manchurian and Siberian railways, but every possible future terminal.

Against Alliance

China Opposed to Renewal of Japanese Pact

Shanghai.—Sir Belby F. Alston, British Minister to China, has reached this city on his way to England, having been given a leave of absence. He is taking with him a petition to the British government presented to him here by a score of leading Chinese student bodies, opposing a renewal of the Anglo-Japanese treaty.

The document says the conditions which led to the negotiating of the treaty no longer exist, and declares the danger from Russia and Germany has been removed. The United States, it asserts, is the only power with strength sufficient to endanger peace, and "it is unthinkable that that country would alter its established policy overnight."

Press Delegates Delayed

Montreal.—Word has been received that the British delegates to the Imperial Press Conference to be held at Ottawa in August, will be three days late in landing. The party, passengers on the Steamer Victorian, will now arrive at Sydney, N.S., and not at Halifax as formerly planned.

Winnipeg.—The whole question of wheat trading in Canada, in view of the announcement of the opening of the United States grain exchanges on July 15, is under careful consideration by the council of the Winnipeg Grain Exchange, according to a statement of J. E. Botterell, president.

All branches of the grain and flour trades were being invited to send representatives to a conference with the executive committee of the Grain Exchange at an early date for the purpose of determining the conditions under which the machinery of the Grain Exchange could best be put at the service of the country for the handling of the 1920 wheat crop, said Mr. Botterell, "therefore the Winnipeg Grain Exchange is proceeding energetically with plans for the safe and efficient handling of the Canadian crop for which the prospects at present are so favorable."

Resignation of Premier Goun

After Fifteen Years in Office, Feels That He Can Consume Work To Other Hands

Quebec.—At a cabinet meeting Sir Lomer Gouin tendered his formal resignation as premier of the province. No announcements have been made as in regard to his successor or other cabinet changes. The official statement of the retiring premier, in part, is as follows:

"During fifteen years I have had the signal honor of enjoying the most complete confidence of our people. I feel that I should now confide to other hands the work of peace, concord and prosperity, which the Liberal party has striven to accomplish in this province since 1897."

"Thanks to the harmony that reigns among all the groups of our population, and to their intelligent and effective collaboration, our province is developing rapidly, and already occupies a very enviable position in the Dominion. I have an unalterable faith in the great future that attends it."

"The ambition of my life has been to merit the confidence of my fellow citizens, and in taking leave of them as prime minister, to think that I have been worthy of that confidence."

Shipowners and Seamen Disagree

Clash Occurs in Genoa Convention—British Sailor Predicts Revolution

Genoa.—Representatives of the seamen and shipowners clashed at the international seamen's conference, when Cutburt Law, representing the British Shipowners, presented an amendment providing that the eight-hour day and 48-hour week should be applied only when vessels are in port.

Mr. Law said: "The 48-hour week would mean destruction of the mercantile marine, which is the greatest asset of the British Empire, and raise thereon the black flag of discontent."

A representative of the British seamen naively replied asserting that shipowners had been the greatest exploiters and had gained millions during the war.

"If you do not treat seamen as they deserve, it is not a question of the black flag, but of the red flag of revolution," he declared. This was applauded by the seamen's delegates.

Salary Arrears for Civil Servants

Back Pay for Fifteen Months Will be Given in Two Weeks

Ottawa.—Back pay checks for fifteen months will be paid to civil servants in the next two weeks. The total amount, according to an announcement in the house of commons, will be about \$4,000,000, that being the estimated cost of ante dating the civil service classifications.

The individual amounts paid will be the difference between a civil servant's former salary and that awarded him by the classification schedules.

It is possible that two checks will be issued for each person, one covering the year from April 1, 1919, to April 1, 1920, and the other for April May and June, 1920.

About 45,000 checks will be sent out from the auditor-general's department.

Tofield Farmer Ends Life.

Stuart Hall, one of the leading farmers of the Tofield district, committed suicide last Monday evening about six o'clock. He used a twenty-two calibre rifle, the ball passing through his brain. He leaves a wife and two sons. There seems to be no motive for the act.

Some time ago Hall made a trip to Scotland, where he has relatives, who are said to be very well-to-do. He returned to his family last spring, but since then he had not been in his usual care-free state of mind. On Monday his wife went to town to do some shopping and on her return, on searching for her husband, found his dead body near the barn, and a rifle close by. He had been shot through the head.

Hall had been a resident on his farm near Tofield for the past twelve years or more and was a man of about forty years.

The coroner's jury sat Tuesday afternoon to inquire into the death of Hall, and decided that he came to his death as a result of a .22 calibre bullet which was discharged while in deceased hands.

DEPARTMENT OF MILITIA AND DEFENCE.

Notice to ex-members of the Canadian Expeditionary Force.

Notice is hereby given to all concerned that ex-members of the Canadian Expeditionary Force who are entitled to and who require post-discharge dental treatment must submit their applications to the District Dental Officer at the Headquarters of the District in which they reside on or before 1st September, 1920. Applications for dental treatment received after 1st September, 1920, will not be considered.

(Sgd) EUGENE FISET,
Major General,
Deputy Minister, Militia and Defence, Ottawa, August 3, 1920.

Note—Newspapers will not be paid for the advertisement if they insert it without authority from the Department.

Jarrow News

(Too late for last week)

Born—To Mr. and Mrs. W. S. Matthews on Aug. 10th a son.

Miss Jennie Matthews returned home on Tuesday from Edgerton where she has been visiting relatives.

Lost, Strayed or Stolen—From Gratten Lake on or about Aug. 9, a raft. Please return and avoid further trouble for your identity is known.

Mr. Ward Matthews spent the week end visiting at Lennox's and Bridgeman's.

Mr. James Morrison and party returned home from a week's holiday at Banff. A very pleasant time was reported.

We wonder if Jarrow young men have been infested with little pests, that they have their hair cut so close.

Mr. Paul Loring has taken the contract of building a mile of good road near town, south of the track. He has several teams hired to assist him in this undertaking.

Mrs. Marshall has moved to the country where she will keep house for her daughter Alice who teaches at Batts.

Mr. Geo. Halloway has a very nice garden but a careful observer noticed a bedstead amongst the potatoe plants, the 'question is, what kind of seed was sown to produce such healthy bedsteads?

Mr. and Mrs. James' little daughter was taken to Loughheed Hospital to undergo an operation for appendicitis.

Among the Jarrowites who attended Sedgewick fair were Mr. and Mrs. Pfeifer and family.

Robt. Deverick spent the week end at the home of Mr. and Mrs. McCully.

Miss Hettie Gammell, Miss Nellie Matthews, Mr. Ronald Morrison and Mr. Harold McDougall motored to Viking on Wednesday evening.

Messrs. G. J. D. Manners, G. A. Matthews and Chas. White motored to Killam on Tuesday last.

Haying is in full swing in the Jarrow district.

Jack Molts has purchased Robt. Deverick's Maxwell. He is having it overhauled and will soon be ready with it.

Miss Matthews returned home from Edmonton where she has been attending summer school.

Watch Jarrow Grow.

VIKING

The Viking public schools will open for the fall term on Monday, August 30th.

Mr. Wm. Wallace, father of W. H. Wallace, of Kodaikanal Farm, north of town, arrived last week from Scotland for a few weeks visit.

A. A. Thorsen has returned to North Battleford, Sask., where he is employed in a printing office.

J. L. Dodds was away to Saskatoon the first of the week on a business trip.

The Women of Viking and Community will be given a real treat by hearing Mrs. F. Aylesworth of Olds, who will lecture on "A Square deal for the Child" in the Community Church, Saturday Afternoon at 3 o'clock, August 28th. Mrs. Aylesworth is convener on "Education and Better Schools" of the Women's Institute of Alberta and comes very highly recommended as an entertainer and speaker. The Women's Institute of Viking extend a very cordial invitation to all women to come and here her. Don't forget the date.

A very successful "Baby Clinic" was held at the Fair. There being 22 babies examined, 5 babies were No. 1 and 3 babies were No. 2.

The Gov't will allow no prizes next year but W. I. will hold "Baby Clinic" same as this year.

Mrs. Jas. Dayton's baby took first prize and Mrs. J. H. Wyatt's baby (of Irma), 2nd. prize.

Kinsella

Mrs. Northey and family have arrived to live at Kinsella where Mr. Northey has completed putting up a dwelling house. Mr. and Mrs. Northey and family formerly resided at Bruce, Alta.

The G. T. P. bridge gang is here for a few days repairing the bridge west of town.

The open air concert given on the school grounds on August 6th in aid of the piano fund for the church was fairly well attended and the fund enriched by about \$65. A splendid program was arranged and a good time was had as well as helping a good cause.

The school house has been completely outgrown and the partition inside has been taken out to make more room. A notice has also been posted in the post office that no new scholars can be taken until more room is arranged for.

E. C. Williams, the lumber merchant, has arranged to have a house erected on the east side of town. Work has already commenced and a basement is being put down the full size of the building. The size of building will be 24 by 30 feet, one story high with a verandah of six feet to the front.

A carload of wheat pulled by the through freight going west was derailed on August 4. Several men arrived and attended to the wreck. Most of the wheat was saved.

We are sorry to learn Mrs. Upton is not well and hope for her early recovery.

Messrs. Marshall and Hulbert are shipping a few carloads of cattle this week. Some must have pulled through the winter O. K.

F. R. Surry's sale held on his farm southwest of Kinsella on August 3 did not go as well as was expected. The machinery and small stuff sold real well but when it came to the stock bidding was very slow and only a couple head were sold.

We take pleasure in welcoming to Kinsella Mrs. J. J. Berry. Mr. Berry has been at Kinsella for several months and is manager of the Kinsella sand pit here.

Mr. Marshall received the sad news by wire that his wife died at her home in Edmonton on August 4. Mrs. Marshall had been well until recently and it is understood the cause of her sudden death was heart failure.

We are sorry to learn Mr. Lockhart is on the sick list.

Victor Reid has moved on to his farm alongside of town, after making his home with Mr. and Mrs. Lambdon over the winter.

Road work has commenced again east of town and work is proceeding along the north side of the track, to be carried on to the first east and west railway crossing.

W. J. Green has purchased Phillipp Bowkitt's quarter east of Kinsella. Mr. Green formerly resided at Edmonton where he conducted a confectionery stand on Jasper avenue. Mr. Green is at present living in town but has announced his intention of buying up some stock and will move on to his farm in the near future.

W. J. Fleming of the Royal bank staff left this week on his vacation.

The Kinsella public school reopened on Monday, August 9th, under the new leader Mr. F. R. Surry.

Chris Grasland has just completed loading a carload of horses to be shipped to Saskatchewan to be sold.

Mr. La Bla's family has left for Ontario to reside. Mr. La Bla will be still here with the Kinsella Sand Co.

E. W. Townsend wishes to say that the success of his sale was due largely to the good work done by the auctioneer, V. A. Justice, of Kinsella. Everything sold brought splendid prices.

We AIM to Satisfy.
